

ScentPOP

SCENT DELIVERY SYSTEM

The ScentPOP scent delivery system is ideal for Point-of-Purchase sampling and promotions such as scent sampling at vending and kiosk centers. It can be easily incorporated into existing displays, fixtures, vending machines and kiosks. The battery powered under-shelf mounted system uses magnets to easily attach to any standard retail shelf. The system is loaded with a scent cartridge that is embedded with a unique fragrance. Easy to replace, these cartridges enable you to change scents to coordinate with new themes or seasons and deliver scent in a clean and controlled way.

Product Features:

- Directional scent delivery up to 4.57 meters
- Over 1,500 quality scents to choose from
- Utilizes replaceable easy to install scent cartridges
- Cartridges last 300 hours, 30 days in typical installations
- Adjustable duration settings
- Motion detection sensor
